Stainless Steel

Classic. Timeless. Beautiful.

A stainless steel sink integrates beautifully in any kitchen environment - better than almost any other material.

The main properties of stainless steel sinks:

- classic, timeless aesthetics
- rustproof
- completely heat resistant
- suitable for food use and hygienic
- stain and acid resistant
- non-fading
- easy to care for

BLANCO uses only highest quality steel of alloy grade to satisfy the highest possible standard.

SILGRANIT® PURADUR® II

The precious stone in the kitchen

BLANCO sinks made of SILGRANIT® stand out thanks to the elegance of the beautiful colours and attractive designs. SILGRANIT® consists of 80% granite, which makes it ideal for daily life in the kitchen.

The stony-silky surface and very finely pored, closed surface create a soft stone-like character that is wonderful to the touch. Thanks to the excellent material properties, SILGRANIT® offers an ease of care and level of resistance that has never been offered before for coloured composite sinks.

Characteristics of SILGRANIT:

- outstanding ease of care
- superior durability
- natural stone like character
- unsurpassed scratch resistance
- unsurpassed resistance to breakage
- heat-resistance to 280 °C
- 100% suitable for food use
- 100% acid resistant
- 100% non-fading

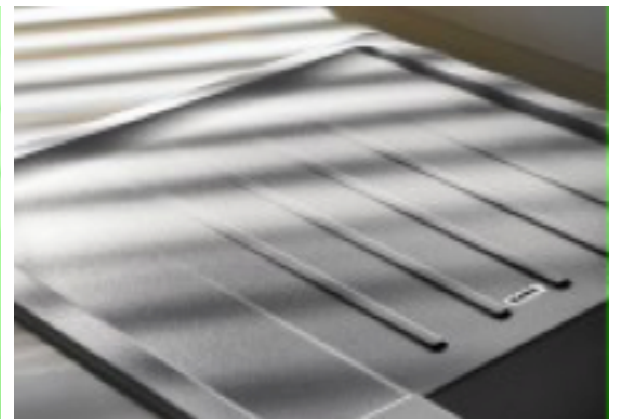

There is a choice of many delightful colours with the identical surface condition and all specially designed to match the BLANCO taps.

Heat resistant

100% suitable for food use

Non-fading, even under direct sunlight

Scratch Resistant

Stain Resistant

Easy to clean

CERAMIC SINKS

The most beautiful combination of nature and design

Sinks and bowls made of BLANCO Ceramic create a pleasant, homely atmosphere. They appeal for their flowing lines and glazed surfaces.

BLANCO Ceramic blends happily both with traditional kitchens as well as modern designs - either to provide a contrast or to match existing colours and shapes, whichever is preferred.

Modern production methods, special manufacturing techniques and the decades of experience of our skilled craftspeople ensure that the quality of our products remains consistently high.

The greatest care throughout the entire production process helps to ensure the maximum precision, down to the smallest detail.

The special properties of BLANCO Ceramic:

- Unbeatably easy to look after
- Resistant to impacts and blows in normal domestic use
- Resistant to scratching and stains
- Full-tone colours, matt or gloss
- Manufactured using traditional methods
- Heat resistant
- Suitable for food use and hygienic
- Acid resistant
- Resistant to light - even direct sunlight

STEELART

Experience the art of craftsmanship

Decades of experience in the processing of stainless steel are reflected without exception in the exclusive STEELART manufacture.

Sinks and made-to-measure stainless steel worktops are created in small series with precision craftsmanship and much passion for detail in accordance with your wishes. They appeal for their timeless aesthetics and functional details, beautiful styles and uncompromising quality, and constantly set new trends in the living world of the kitchen.

STEELART contains a range of exclusive sinks and worktops in beautiful and exceptional styles that have already won a number of awards for their designs. However, design isn't always design. Only unique, consistently matched and balanced geometries and surfaces meet the highest requirements, and thus the STEELART System Design philosophy.

STEELART System Design provides the perfect match between all of the elements of a sink centre, whether sinks, bowls, worktops, cutting or chopping boards or mixer taps. The design idea behind every system is carried out from the sink to the accessories. This results in a perfectly harmonious overall impression.
